**EXPOSED**

## Yarra Trams wants its dirty deal done DIRT CHEAP

The French multinational wants you to accept a dodgy enterprise agreement that would destroy job security and devastate our

### Dodgy pay offer

Yarra Trams' dodgy pay offer is the lowest in YEARS

industry!

KDR Victoria Pty Ltd made a net after tax profit of over **\$18 MILLION** last financial year. This was **TWICE AS MUCH** as the **PREVIOUS YEAR!**

Its French multinational parent company is bragging about record growth! Yarra Trams would prefer to send its money to France rather than pay its workers properly!

## Dodgy mass part-time workforce

Yarra Trams wants you to accept a dodgy pay deal and in exchange it wants to destroy your job security.

Our secure full time workforce is protected by the current 4% cap on part-time workers.

Yarra Trams wants you to agree to it being able to increase the part-time workforce from 4% to a whopping 35%!

Yarra Trams is trying to mislead you because it also wants to employ new part-time workers in excess of the 35% cap on the basis of "special measures". That gives it the ability to have a workforce comprising a majority of part time employees!

Yarra Trams claims its offer includes protections. Can anyone trust this French multinational which has form for not complying with Australian law!

**The French multinational has arrogantly dismissed almost all RTBU claims!**

**Vote NO to Yarra Trams' dodgy deal** **Vote NO to protect your job security**  
**Vote NO to get Yarra Trams back to the bargaining table to get a better deal**
